### Intron

## Associated SO term(s)

SO:0000188 (intron)

# **Recommended Glyph and Alternates**

An intron is designated by a boundaries interrupting CDS, each side having a two-triangle "torn out" edges, suggesting removal from an enclosing coding sequence:

## **Prototypical Example**

Example of a coding sequence with three domains: an N-tag (blue), C-tag (yellow), and internal region (red) interrupted by an intron that includes a gRNA non-coding RNA sequence (green):
